sept 29 B. W. BRADBURY

Wheeler & Wilson's
*LOCK-STITCH*
SEWING MACHINES.

THESE UNEQUALLED MACHINES are adapted to every variety of sewing for family wear, from the lightest muslins to the heaviest cloths.—They work equally well upon silk, linen, woollen, and cotton goods, with silk, cotton, or linen thread. They will seam, quilt, gather, hem, full, cord, braid, bind, and perform every species of sewing, making a beautiful and perfect stitch, alike on both sides of the article sewed.

The QUALITIES which recommend the Wheeler & Wilson Machines are:

1. Beauty and excellence of stitch, alike on both sides of the fabric sewed.
2. Strength, firmness and durability of seam, that will not rip nor ravel.
3. Economy of thread.
4. Its attachments and wide range of application to purposes and materials.
5. Completeness and elegance of model and finish
6. Simplicity and thoroughness of construction.
7. Speed, ease of operation and management, and quietness of movement.

CHARLES HALE,
*SOLE AGENT,*
oct 25 M&Th 3m 24 Main St., Bangor.

Stoves, Stoves, Stoves!

*HOW YOU WASTE YOUR FUEL, AND HOW TO PREVENT IT!*

FOR further information call at McGREEVY, TRACY & CO.'S, Nos. 15 and 16 East Market Square, and see the
General Grant Cook Stove,
The only Stove in market constructed upon scientific principles.

We feel assured in calling the attention of the public to this Stove, that we have a Stove superior to anything in the market.

All large class of diseases arise from the poisonous gases and vapors saturating our food during the baking process, and infecting the atmosphere of the room.

We have met this demand by furnishing a Stove with an Oven into which there is a
Constant Flow of Fresh Heated Air,
Combining with and carrying those gases and vapors up the chimney.
McGREEVY, TRACY & CO.,

U. S. Marshal's Notice.

UNITED STATES OF AMERICA,
DISTRICT OF MAINE, SS.

PURSUANT to a Monition from the Hon. EDWARD FOX, Judge of the United States District Court within and for the District of Maine, I hereby give public notice that the following Information has been filed in said Court, viz:—An Information against—
Sixty-two yards of Silk;
Six yards of Silk Velvet;
Seven and one half yards of Broad Cloth;
Eleven and one third dozen pairs of Kid Gloves;
3 Shawls; one Horse; one Wagon and Harness;
Seized by the Collector of the District of Bangor, on the twenty-seventh day of October last past, at Enfield, in said District.

Which seizure was for a breach of the laws of the United States, as is more particularly set forth in said Information; that a hearing and trial will be had thereon at PORTLAND, in said District, on the *First Tuesday of December next*, when and where any persons interested therein may appear and show cause, if any can be shown, wherefore the same should not be decreed forfeit, and disposed of according to law.

Dated at Portland this twelfth day of November, A. D. 1866.
F. A. QUINBY,
nov 14 3w Dep. U S Marshal.

CANCERS CAN BE CURED!
DR. L. CHASE,
*(LATE OF PORTLAND),*
THE CELEBRATED
INDIANOPATHY, CANCER & HUMOR
DOCTOR,

HAVING purchased the residence of H. A. Woon, 54 Hammond Street, Bangor, Maine, would be happy to be consulted by all who are afflicted with

*Cancers, Cancer Humors, Tumors, Scrofula, Leprosy, Salt Rheum, Fits, Neuralgia, Bronchial Affections, Catarrh, Rheumatism, Sick Headache, Liver Diseases, Female Weaknesses, Piles, Diseases of the Throat and Lungs, Diseases of the Kidneys, Stiff Joints, Gravel, Diabetes, &c., &c.*

DR. CHASE has practiced in his profession for sixteen years, and in that time has spent two years in Florida and Cuba, for the purpose of gaining a correct knowledge of the most efficient remedies used by the various tribes of Indians in that country, and by great expense has gained many valuable secrets which have heretofore been unknown to the world.

In Cancer he claims superiority over all other Physicians of the age, for he never fails to perform a cure when taken in a proper stage.

His mode of curing Cancers is by the application of a plaster, which is strictly vegetable, and will have no effect upon the healthy flesh, and in no case uses a knife, as does Dr. Greene, of Boston.

He also boldly asserts that he can tell every individual their disease and location of their pains, and describe their feelings in almost every case, more minutely than they can possibly themselves.

Dr. Chase is not a Clairvoyant, but conducts his examinations on a strictly scientific principle, and will challenge any professed medium for a test examination.

Office hours from 9 A. M. to 8 P. M. Examinations free. Office at residence, No. 54 Hammond Street.
November 7, 1866. d&w

NEW YORK
LIFE
INSURANCE COMPY.

Which is the Best Company to Insure in?

THE Massachusetts Commissioners, in presenting their Eleventh Annual Report to the Legislature of that State, say, "More than a million of persons belonging to the cream of our population are directly interested in this question." In no State is the ground better canvassed, and the character of the Companies more fully understood, than in Massachusetts. Nowhere are the Commissioners' reports so freely distributed and closely scrutinized.

The NEW BUSINESS of the four leading Companies in the city of Boston for 1864 was as follows:

| | |
|---|---|
| New York Life, N.Y. | $1,232,600 |
| Mutual Life, | 830,500 |
| Mutual Benefit, N.J., | 256,500 |
| Connecticut Mutual, Ct, | 174,350 |

New Business of Same for 1865.

| Company. | Amount insured. | Premiums paid. | No. Agts. 1865. |
|---|---|---|---|
| New York Life, | $2,362,500 | $129,301 34 | 1 |
| Mutual Life, | 1,532,000 | 76,287 52 | 4 |
| Connecticut Mutual | 818,100 | 28,702 99 | 5 |
| Mutual Benefit, | not given | 54,164 09 | 1 |

New Business in the whole State of Massachusetts in 1865.

| Company. | Amount insured. | Premiums paid. | No. Agts. |
|---|---|---|---|
| New York Life, | $2,948,000 | $153,196 53 | 3 |
| Mutual Life, | 2,867,493 | 138,228 53 | 26 |
| Connecticut Mut'l, | 1,060,708 | 49,159 22 | 16 |
| Mutual Benefit, | not given. | 74,849 97 | 7 |

The solid men of Massachusetts, as shown above, say the NEW YORK LIFE is the best.

SUICIDE

Does not cause a forfeiture of the Policy in this Company, which is not the case with any other Company in AMERICA.

We have the Reports of the Commissioners of New York and Massachusetts, showing the standing of all the Insurance Companies in the country, and persons desirous of ascertaining the standing of any of these Companies with a view to insurance, can have access to these Reports.

Dividends are, and always have been, declared *Annually.*

TELEGRAPHIC.

Despatches to the Evening Times.

France and the Mexican Question.

NEW YORK, Nov. 24.

The Herald's special Washington despatch says:

It is intimated in official circles that the French government has declared its purpose not to abide by the arrangement concluded with Mr Seward to withdraw the French troops from Mexico this fall, and postpone the withdrawal until next spring. It is believed this was the subject before the Cabinet yesterday.

The arrest of Ortega turns out to have been a voluntary act on the part of General Sheridan, but it has been approved by the Government. It appears that Ortega is merely the instrument of only a small clique of French and British merchants, who are anxious to secure the trade of Mexico and prevent its falling into American hands. The native population unanimously adhere to Juarez.

NEW YORK, Nov. 24.

The Chamber of Insurance yesterday resolved that the people ought to be protected as effectually as possible from all unsafe and fraudulent schemes of insurance, and to this end should seek an enactment by Congress for applying annually the proper sufficiency of assets of each company.

DETROIT, Nov. 24.

The steamship Milwaukie, and Lake Superior propeller Lac Labelle collided last night in St. Clair river, the propeller sinking in five minutes. The engineer, James Evans, and one colored waiter were drowned. The Lac Labelle was valued at at $120,000 and insured for $80,000. She had a cargo of copper and iron ore, fish and general merchandise.

QUEBEC, Nov. 24.

A large number of temporary sheds have been erected in the burnt district, in which many of those burned out by the late fire will find shelter for the winter. A great many are emigrating to the United States.

The weather is cold.

A public testimonial is proposed for Dr. Marsden in recognition of his zeal and ability in securing stringent quarantine regulations with New York and other American ports, by which the spread of cholera was prevented.

NEW YORK, Nov. 24.

Affairs in Wall street are becoming settled. There is a decided gain of confidence and the panic will probably blow over.

Money is 7 per cent on stock credentials and 6 on governments.

Stocks improved; governments strong, the fall in prices having brought out large orders from the interior.

[By Cable to Associated Press.]

Prussia Offers to Protect the Pope—Discovery and Escape of John H. Surratt.

Madrid, Nov. 21. The Lealand of to-day says the King of Prussia has written to the Pope, offering protection to Rome.

J. H. Surratt, the alleged accomplice in the murder of President Lincoln, was discovered serving in the Papal Zouaves, under the name of John Watson. He was arrested upon a demand of Gen. King, but afterwards ran the guard, leaped over a precipice and escaped into the Italian territory. The Italian authorities are on the alert and endeavoring to recapture him.

London, Nov. 22. It is reported that the steamship Great Eastern will begin to make regular trips between New York and Brest early in March.

Vienna, Nov. 22. Admiral Tegethoff, of the Austrian navy, left Vienna yesterday for the United States. He will go direct to New York.

London, Nov. 22.—afternoon. The Paris correspondent of the London Post says the relations between England and the United States will soon be critical.

London, Nov. 22—evening. U. S. five twenties 70½.

How Coal was Discovered in Pennsylvania. A writer in the New York Observer asserts that Col. George Shoemaker, a gentleman of Teutonic origin, was the discoverer of Pennsylvania coal. He lived on the Schuylkill and owned extensive tracts. The writer goes on to say:

It chanced one day, that in constructing a limekiln he used some of the black stones that were lying about the place.—*'Mine Got! Mine Got! dere stones pe all on fire!'*—exclaimed the astonished Dutchman, when the rich glow of the ignited anthracite met his gaze. This happened in 1812. Shortly after, mine host loaded a Pennsylvania team with the black stones, and journeyed slowly to Philadelphia, a distance of ninety-three miles. There unforseen difficulties were presented. The grates and stoves then in use were not constructed to facilitate the combustion of anthracite, and it would not burn. After many ineffectual efforts to ignite the product, it was thrown aside as worthless, and our discomfitted German, who had beguiled his way to the metropolis with dreams of ingots, returned to digest his disappointment in his mountain solitude.

Earthquake in Quebec. They have had an earthquake in Quebec this week. It commenced shortly after 11 o'clock in the forenoon, and lasted over a minute. The movement was from northwest to southeast. Bells were set a ringing, and stoves made lively motions; furniture waltzed and polked and cut up capers generally; chimneys toppled over and agitation existed among all things animate and inanimate. The river made some very eccentric ebbings and flowings, and noises were heard like the movement of heavy artillery or lumber cars.—Business gave way for a time to surprise and fear, but the earthquake ended without serious damage.—Journal.

Atrocious Affair in Mississippi. The Brookhaven (Miss.) Journal, of the 10th, says:—

To-day we chronicle another murder in our vicinity that is unsurpassed by any previous horrible deed ever committed in this country. Not many weeks since, we published an account of the murder of Jasper Decell, by an unknown assassin, and the narrow escape of his son by the same shot that was aimed at his father. In the same neighborhood a similar deed has been committed, but of deeper dye, and the assassin again escapes. On Tuesday night last, Mr. Joel Norton was fired upon by a concealed assassin, while out on his gallery getting a drink of water. Six balls entered his body, and caused almost instant death. After he was shot, he walked into the room, when his sister asked him if was much hurt, and, replying that he was, fell lifeless to the floor. This frightful tragedy threw the whole house into consternation, and all their thoughts were turned to the one who a few moments before was in the bloom of life, but now lay a corpse before them. Their grief over this sudden loss of one of their family was intense; but little did they think this rude messenger of death had claimed two of their number as its victims. Nevertheless, on entering the bed-chamber of the little children, to disclose to them the sad tidings of the death of their uncle, lo! it was found that one of those innocent little creatures was on its journey. The same ball that caused the death of the uncle pierced the head of the unoffending little ones, carrying it off without a murmur, or even waking the other children in the bed. The cause of this murder is wrapped in mystery. Mr. Norton was a peaceable, unoffending citizen.

A Curious Statement. The following is from the New York correspondence of the Springfield Republican:

Speaking of politics reminds me of an incident of the riots of 1863, related to me by an eye-witness. You remember the Tribune office had been threatened and was defended by armed men. The afternoon that Governor Seymour addressed the mob from the steps of the Astor House, one of the defenders of the Tribune, a dead shot, stood in the editorial window with a telescopic rifle aimed at Seymour's head. If the unscrupulous demagogue had said anything to excite the mob, the intention of our rifleman was to shoot him dead on the spot, and he would have done it beyond a question. Fortunately for Seymour he only sought to conciliate the insurgents, and so escaped with his life. It is not probable that the crafty politician ever knew how near he came to having a ball lodged in his skull, and it may be that his good genius stepped between him and his natural disposition on that memorable and melancholy day.

Washington, Nov. 23.

The pressure for the amnesty-suffrage compromise promises to be utterly ineffectual.—Those who are urging the plan upon the President admit that he adheres to his policy, declares that it was not repudiated at the elections, and that he really contemplates making it the issue in the Presidential election.

There is no truth in the reports that the President has given the copperheads the cold shoulder. Most, if not all of the appointments recently made are of old line democrats. [So in Maine!]

The following is a verbatim report of the speech of Assistant Secretary Chandler to his serenaders, last night, which was telegraphed North as an indorsement of the President's policy:

"Gentlemen—I thank you for your kind call and for the beautiful music with which you have favored us, and as it is a little cold out here I invite you in where you will receive a warmer reception and more substantial thanks."

The Grand Trunk Railway freight depot at Port Sarnia, in Canada, has been destroyed by fire. A large amount of freight and eighteen cars were consumed. The books of the railroad, and the equipments for two military companies to fight the Fenians were lost.—Loss $500,000. The depot covered an acre of ground.

ITEMS IN GENERAL.

An English paper says: "We have to record the extraordinary fact that about £250,000 in bar silver have arrived from Calcutta. For a long series of years there has been a constant stream of silver from Europe to the East, and the extent of the absorption there has caused a vast mass of the silver currency of the continent to be drafted away and replaced by gold.

The total number of horses, cattle and other domestic animals in the whole of France is as follows:—Horses, 3,000,000; asses, 400,000; mules, 330,000; horned cattle, 14,300,000; 380,000 sheep and 5,300,000 pigs.

The great suspension bridge at Cincinnati will be ready for passengers on the 1st of December, and a month later it is hoped to have it ready for vehicles. This bridge has the longest span in the world.

The Imperial State Crown of Queen Victoria was made in 1838. It consists of diamonds, pearls, rubies, sapphires, and emeralds set in silver and gold, and has a crimson velvet cap with ermine border, and is lined with white silk.

Hon. John Z. Goodrich of Stockbridge, formerly Collector of the port of Boston, has been appointed President of the Housatonic Railroad (between Pittsfield, Mass., and Bridgeport, Ct.) in place of Charles Hunt, resigned.

A woman in Detroit, married seven years recently gave birth to four children at a time. She has attained he present proficiency by arithmetical progression, producing one, two, three and four in regular gradation.

While Thelwall was on trial at the Old Bailey, for high treason, he wrote the following note, and sent to his counsel. "Mr. Erskine, I am determined to plead my cause myself." Mr. Erskine wrote under it: "If you do, you'll be hanged;" to which Thelwall replied: "I'll be hanged, then, if I do."

"I say friend, your horse is a little contrary, is he not?" "No, sir!" What makes him stop then?" "Oh, he's afraid somebody 'll say whoa, and he shan't hear it."

"And ye have taken the tee-total pledge, have ye?" said somebody to an Irishman.—"Indade I have, and I am not ashamed of it either." "And did not Paul tell Timothy to take a little wine for his stomach's sake?" "So he did, but my name is not Timothy, and there is nothing the matter with my stomach."

WHEELER & LYNDE, PROPRIETORS

WM. H. WHEELER, EDITOR.

Business letters should be addressed to the Publishers, "WHEELER & LYNDE."

MONDAY, NOVEMBER 26, 1866.

A THREATENED REVOLUTION IN SPAIN. If we may believe the general and strong impression of European writers, (says the N. Y. Post) Spain is upon the eve of a revolution which, if it begins, will not probably end without the overthrow of the reigning family. The series of extraordinary measures, which the Queen, at the instigation of her confessor, Father Claret, has recently ordered, and which her Prime Minister, Narvaez, has vigorously executed, is about to be capped by a return to the church of all the church property remaining unsold, which, as it threatens, the pecuniary rights of all who have bought of this species of property, will, it is thought, produce an explosion.

What has been done within a short time, in the way of governmental tyranny in Spain, is thus summed up by an English writer.

All Spain is treated as in a state of siege. Decrees are held to be equivalent to laws; the Cortes is silenced by the simple expedient of dispensing with its attendance. The entire system of education was revolutionized in a day, the Supreme Board being summarily dismissed, to make room for priests, and laymen more fanatical than priests, and all teachers suspected by the local priesthood of being placed at the disposal of the Bishops. All liberal newspapers are suppressed, and their editors in many instances deported. All other newspapers and books are placed under rigid censorship. Any expression even in society, reflecting on the Queen, or the church or established order, is declared a crime punishable as treason. All municipal bodies are abolished as "centres of disaffection," and replaced by juntas nominated from Madrid," and "amenable to ideas of discipline." And finally, a reign of terror is established over individuals, families suspected of liberalism being seized by the score—more than one hundred and fifty in Barcelona alone in one day—and either deported to the tropical island of Fernando Po, a doom almost worse than death, or thrown into prisons which no Howard has ever cleansed. The French papers, which still receive some few letters from Madrid, declare that the prisons are full to bursting, that the Queen drives out only amidst a guard of cuirassiers, that all Madrid only waits its turn to undergo the penalty of being suspected. All Spain, in fact, is not only under martial law, but martial law as administered in Jamdici, among negroes, and by Mr. Eyre. Silence reigns throughout the land, silence as of men expecting death, or of troops expecting immediately the order to close for action. Spain is at this moment governed as Philip II. governed her.

THE ELECTIONS. Massachusetts foots up as follows:

| | |
|---|---|
| Alexander H. Bullock, | 91,880 |
| Theodore H. Sweetser, | 25,671 |
| Scattering, | 100 |

Governor Bullock's majority over all is 65,209!

The official majority of Gov. Fenton in New York is 13,330. The Republican majority in Minnesota proves to be 10,537. The Democratic majority in Maryland for Comptroller of the Treasury—the only State officer voted for—is 12,932.

The official account in Illinois makes Logan's majority 56,107. Lincoln's majority in 1864, 30,736. Republican gain, 25,371. Logan's vote exceeds Lincoln's 13,769, while Dickey's falls below McClellan's 11,572. The total vote of the State is 350,423. This is 2197 in excess of the vote of 1864. Nearly all the northern counties fell short of a full vote. Had they come out in their full strength, the total vote would have reached 385,000, and Logan's majority would have reached 475,000, and Logan's majority would have been from 60,000 to 65,000.

The Richmond Examiner, alluding to the rejection of the amendment by the Georgia Legislature, says:

"Georgia has acted on this vile proposition in a manner that excites our warmest admiration. She has rejected the amendment, and done it promptly. We cannot applaud too highly the promptitude and vigor of this honorable decision. All we regret about it is that Virginia did not have the opportunity to lead off in the matter. Our legislature will meet in December, and we imagine it will not take that body long to arrive at a similar emphatic conclusion. Though Georgia has had the first opportunity to act formally on the subject, the press of Virginia have not been tardy in announcing the unanimous determination of our people never, to become accessory to their own disgrace and humiliation. It has been asserted by radical presses and their allies that the refusal of the South to submit to this infamy is strengthened by the encouragement of the President and the Northern democracy. In a certain sense, this may be true, but if all these were to join in commending this chalice to our lips, we would still dash it to the ground untasted."

POLITICAL. Gov. Hamilton of Texas, Thomas J. Durant, of New Orleans, Gen. Butler, and Logan, Senator Cole of California, Judge Bond of Baltimore, and others, have been invited to participate as orators at the mass welcome in Washington on the 1st proximo. Eight associations have united in the movement.

Ex Governor Winston, of Alabama, has been elected to the position of United States Senator from that State for the long term, commencing next March.

The Raleigh Standard regrets the large emigration going out from that State. Three or four hundred passed through Raleigh on the 14th, going north. From nearly every portion of the State a similar tide is flowing. Many Union men, Southern as well as Northern, have found public sentiment too strong against them in Louisiana, and have left for the North.

A RUSSIAN AND PRUSSIAN ALLIANCE. The Paris Presse of Nov. 1 has an article signed by M. Cucheval Clarigny, commencing with the statement that "The alliance between Russia and Prussia is now a question of the continual interchange of good offices which was revealed to indignant Europe in 1863 by the Extradition Convention of Posen, of that permanent complicity which led the Nord to speak of Prussia as the "traditional ally of Russia; it is a question of binding engagements entered into with reference to a special object and in anticipation of events already determined upon."

After noticing the manner in which this alleged alliance has been effected, the article goes on to explain its object:

If Russia, in the execution of her plans in the East, should meet with any other obstacle than the Turks, Prussia will range herself on her side. If any foreign intervention should thwart the work of assimilation which Prussia is accomplishing in Northern Germany, or the already prepared absorption of the minor States south of the Main, Prussia can rely upon the armed co-operation of Russia.

A Southern paper thinks that the Cohoes mastodon isn't very much of a beast after all. It says that a gentleman is engaged at this moment in Nash county, North Carolina, on the banks of Fishing Creek, in unearthing the remains of a monster, probably of the saurian species, which surpasses in size any relic of the primitive era of the earth's history which has yet been discovered. He began disengaging the monster from the bank in which it is imbedded several weeks ago, and has already unearthed 85 feet without coming to either extremity!

CURIOUS STORY FROM PARIS. We find the following in The Pall Mall Gazette:—"It is a curious illustration of the strange notions prevalent in France in reference to the Emperor Napoleon, that among the workingmen of Paris there is a story that he has been dead a fortnight, and was personated at the review on Monday by a well known tent-maker. There are three men in Paris, it seems, who very closely resemble his Majesty—one being the tent-maker in question, another a wood-ranger in the Bois de Boulogne, and the third the keeper of a dancing room at Mont Parnasse."

A number of residents of Norwich, Ct., disgusted with the market price of coal, recently chartered a schooner to make a trip from Philadelphia with a full cargo of that valuable article. The coal arrived a few days since and proved to be of excellent quality, while it was afforded to the subscribers at seven dollars and a half per ton. The tons of this coal weighed 2240 lbs. each, quite an increase over those of most dealers.

During the late canvass in Maryland, the Democrats in one of the interior towns projected a grand procession, one feature of which was to be a negro riding on a bureau. A man was not to be hired, although the most needy and the most worthless colored men in the neighborhood were applied to.—Not a negro could be found who would be seen in a copperhead procession, and one of the Democrats had to personate a black man by the aid of burnt cork.

A Richmond (Va.) paper, having stated that many Virginians who left their native State years ago to aid in founding the new Commonwealth of the South and West, and extend the area of slavery, are now about to return, the "peculiar institution" having been abolished. The Parkersburg, (West Va.) Times, commenting thereon, says:—"The emigration of ten rats into this State would be worth fifteen of them."

It is contemplated by the French government to establish a telegraphic communication between the French coast and New York. This project was considered last year, and the success of the Atlantic cable has caused it to be reviewed. The Emperor has, it is said, expressed himself very favorably regarding it.

So much of the Pacific Railroad enterprise is completed that trains are now running regularly to within 275 miles of Denver. The people of Colorado have great reason to rejoice. The Tribune says the embryo State boasts unusual prosperity in its mines and industry.

The Colored Men's League of Indiana urge their brethren to join the Impartial Suffrage League of the United States, of which the Governor of Massachusetts is President. By means of this combination a successful legal agitation of colored men's rights is ardently hoped for.

A specimen of a reconstructed candidate for Congress is James P. Hambleton in the 7th Georgia District. He was to have been shot as rebel spy by Gen. Rosecrans in 1863, but was saved by a retaliatory order from Bragg, and has now been pardoned by the President. In his card soliciting votes he says:

Let us obey the laws, pay the taxes; but under no circumstances apologize for the many thrashings given the representatives of "the best Government the world ever saw" at Bull Run and other places too numerous to think of! Let us never acknowledge ourselves traitors or inferiors! Let us maintain boldly, fearlessly and defiantly if we choose, that the South, in her effort to establish a Southern Confederacy, was guilty of no crime, and although failing, was simply in the exercise of an inalienable right, the underlying principles and cause of which was the noblest, the grandest, the most righteous and glorious for which any people ever battled! Cringing, crawling, fawning, and apologizing has done the south no good. Nothing but blood and plunder will satisfy the Radical maw.

UNION FEELING IN VIRGINIA—ANECDOTE OF GEN. LEE. Virginia is not united in defense of the rebellion now that her Union citizens dare to speak their minds. At the annual meeting of the Central Railroad Company, held at Richmond on Thursday, a Mr. John R. Wood of Albemarle county expressed himself very freely on political matters. He had always been a Whig, he said, and he was opposed to war and to secession, as was originally that great Captain, Robert E. Lee. He saw Gen. Lee at Gordonsville at the beginning of the war, just after that officer had resigned his commission in the United States Army. There was a great crowd present, and one of them remarked. "Gen. Lee, is not this a glorious uprising of the people?" There was no smile on the General's face as he replied calmly but sadly: "Gentlemen, I beg you to remember that there's a tremendous uprising elsewhere by this time." Mr. Woods went on to say: "We have all found out that it was so."

## SPECIAL NOTICES.

**St. John's Commandery, K. T.**

Stated Conclave, Monday Evening, November 26th, at 7 o'clock.

K. T.

*MUSICAL!*

A CLASS will be formed at Mr. Wilder's Hall, on Monday evening, December 3d, at 7½ o'clock, for the practice of OPERA CHORUSES.

**An Effectual Worm Medicine**

BROWN'S VERMIFUGE COMFITS,

Or Worm Lozenges. Much sickness, undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradication worms, so hurtful to children.

CHILDREN HAVING WORMS require immediate attention, as neglect of the trouble often causes prolonged sickness.

SYMPTOMS OF WORMS IN CHILDREN are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making *Brown's "Vermifuge Comfits"*, is such as to give the best possible effect with safety.

CURTIS & BROWN, Proprietors, New York.—Sold by all Dealers in Medicines, at 25 cts a box.

**SCHENCK'S MANDRAKE PILL.**

*A Certain Cure for Diseased Liver and the most Dangerous Maladies which are caused by a morbid condition of that organ.*

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbents. One of the obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a mobid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries; it passes through the flesh, taking aqual impurities in its progress: then the system of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption.—They usually begin their treatment with the use of some cough medicine, the basis of which is morphine or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

*Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,*

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines; viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Inspirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. For sale by all druggists.

## Bangor Bridge Company.

To the Legislature of the State of Maine, assembled at Augusta, January, 1867.

THE Bangor Bridge Company would respectfully represent that the time will soon arrive when, by the terms of the charter to said Company, the rate of tolls then established shall be subject to the further regulation of the State.

The said Bangor Bridge Company would therefore respectfully ask the Legislature to regulate and establish the tolls for said Company, for the remainder of the term of said charter, or take such measures in the premises as may be deemed proper.

E. L. HAMLIN,
GEORGE STETSON, } Directors.
JOHN WYMAN,

And duly authorized by a vote of the Stockholders in said Company.

Disastrous Fires in Missouri and Alabama.

A Fatal Shooting Affray in New York.

## *European Intelligence.*

WASHINGTON, Nov. 25.

A general meeting of department clerks was held last evening for the purpose of making arrangements for petitioning Congress for an increase of salary.

At a meeting of the executive and general committee having charge of the arrangements for a mass welcome to Congress last night it was resolved that Capt. A J Bennett and Maj W S Morse of the finance committee immediately visit Baltimore Philadelphia and New York.

Col H S Pearce is to be temporary chairman of the committee, with power to act in the collection of funds in the District of Columbia.

It was ordered that the committee on orator and speakers be instructed to invite ex-Vice President Hamlin to deliver the address of welcome on the event that General Logan should decline.

WASHINGTON, Nov. 25.

The following official Mexican news has been received by Minister Romero:

Col Garcia, appointed Governor of the State of Puebla, has issued a proclamation to the people of that State calling upon them to take up arms against the invaders. He reports the French have lost the whole State of Puebla, keeping only the line of main road from Vera Cruz to the city of Mexico. Gen Diaz' victories in Oaxaca will cause the French to lose the left side of the road, which can be cut off now at any moment.

WASHINGTON, Nov. 24.

The Treasury disbursed as follows during the past week:

| | |
|---|---|
| War department, | $2,784,983 |
| Navy " | 2,717,098 |
| Interior. " | 107,424 |

National bank notes were issued to the amount of $1,134,010, making the total in circulation $298,139,069.

The National Exchange Bank of Baltimore has voluntarily ceased to be a depositary of public money.

NEW YORK, Nov. 24.

Gen Butler delivered an address at the Academy of Music to-night upon Usurpation, Wrongs and Abuses of the Executive Power and the Constitutional Remedy therefor.

His main points were on impeachment of President Johnson. He charged him with high crimes and misdemeanors, which might be grouped under the heads of intoxication, of making indecent and incendiary harangues intended to incite the hatred and fear of the people against Congress, with usurping rights and powers of Congress, with appointing ineligible men to office, with neglecting to carry out the provisions of the constitution, and with pardoning John T Munroe that he might use his influence in interfering with the Louisiana State Convention in killing, assassinating and murdering its members.

In conclusion he said:—"We ask nothing of those who fought against us, neither do we ask them how we shall reconstruct this government."

NEW YORK, Nov. 24.

The Post's special Washington despatch says:

Mr Seward has asked an explanation from the French government in relation to the continued occupation of Mexico, but no new demand has been made.

The current reports that the President is ready to abandon his reconstruction policy are without foundation.

NEW YORK, Nov. 24.

The Herald's special says the Chicago tunnel for supplying the city with water was completed to-day.

NEW YORK, Nov. 25.

The Herald's Mexico correspondence shows that the Mexican muddle is still more complicated. Maximilian was still at Orizaba, and in French circles is reported to be insane. The adherents of Maximilian deny this statement, stating that he attends to business at Orizaba, as usual. The conservative party is anxious for his return to the capital and his throne, pledging a large fund for his purposes, but he has stubbornly refused to comply.

Fears are entertained by the Imperialists that Maximilian is intriguing with Juarez, and will abdicate in his favor.

Don Miguel Miramon and Don Leonardo Marguez, who left Vera Cruz for the City of Mexico, were obliged to return by guerillas.

Gen Ortega was still at Parajos, and had published another protest.

The Herald's New Orleans special despatch says:

Caravajal indignantly denies having any complicity with Ortega.

The cholera was raging in and about Matamoras, although the health of the troops was good.

The gunboat Chinchia will undoubtedly be turned over to Escobedo, who now commands in front of Matamoras conjointly with Lopez Vega.

ST. LOUIS, Mo., Nov. 24.

Flour nominal and unchanged with small business.

Wheat drooping.

Corn is heavy and 5c lower—sales at 92@96 for old and 91 for new.

Oats dull and lower—sales at 49@52.

Provisions dull and lower.

Pork dull—new mess 22,00.

Lard dull at 18 for choice tierce.

Hogs 5,85 a 6,25.

NASHVILLE, Nov. 25.

Fifty-seven Radical Senators and representatives will to-morrow publish a call for a State Republican Union Convention, to meet at Nashville on the 22d of February next, to nominate a candidate for Governor.

MOBILE, Nov. 25.

Two squares between Lawrence and Warren Streets, containing from 30 to 40 buildings, were burned this morning. Probable loss $100,000—which is partially covered by insurance.

SAN FRANCISCO, Nov. 24.

The Steamship Golden City, from Panama, with New York dates of November 1st, arrived this morning.

Barque Peri, for Hong Kong, takes $197,000 in treasure.

The committee in charge of the representation of California at the Paris Exhibition have reported against contributing sections of the big tree. Wm. P. Blake the California Commissioner to the exhibition, has issued an address to the people of the State, explaining the manner in which lives and agriculture are to be represented, and declaring his purpose, after arriving at Paris, to publish in the English, French, and German languages an account of the climate, soil, agriculture, quality and price of public lands, cost of living, rates of wages made and migration and mining statistics. He will also deliver an address in the French and English languages, and illustrate it with maps and drawings and references to the California collections.

NEW YORK, Nov. 25.

Steamship Germania, from Southampton 14th inst., has arrived. 35 cases of yellow fever, 14 of which proved fatal, occurred on board.

The Golden City brings news from Acapulco of the landing of the whole armament of schr Western at Boca de Tronaja, before the arrival of the Imperial vessel sent to capture her.

The British Secretary of State has proposed to give a reward of £15,000 to Snider's family for his breech-loading invention.

The Swiss Government has ordered 80,000 breech-loaders.

The Cholera was diminishing in London.

The French Emperor had invited Prince Napoleon to take part in the labors of the military organization committee.

The iron clad squadron had been ordered to be ready for sailing on the 28th inst. It is stated they are to bring back the French troops from Rome.

The Constitutionnel denies the statement that Mr. Odo Russell had spoken of the withdrawal of the Pope from Rome. His authority from the British Government to offer its hospitality to his Holiness.

No cholera is reported in Paris.

Mr. Gladstone has written to the official journal denying the account of his interview with the Pope, published in the Italian Courier.

Intelligence from Rome states that it has been decided at a secret consistory that the Pope would be obliged to quit Rome. He will seek an asylum in Malta. Ecclesiastical authorities of Malta have received a semi official notification of this decision.

Tranquility prevails in Spain.

The Czar has issued a decree remitting the exceptional imports taxes and monopolies in force in 400 towns in Russian Poland. 400,000 citizens and peasants will thus become proprietors of their estates, in consideration of the payment of certain indemnities.

The independent party has triumphed in the Swiss elections. The Grand Council is composed now of 63 Independents and 41 Radicals.

The Prussian Finance Minister has presented the budget for 1867. It states that 27,500,000 thalers had been paid into the treasury. The revenue of 1866 showed 16,884,000 thalers including 4,000,000 derived from war contributions, thereby exceeding the estimates by seven and a quarter millions.

The King of Denmark opened the Rigsdag in person. He said a bill for the dowry of Princess Dagmar would be introduced. He also said that by the treaty of peace between Austria and Prussia. The latter has undertaken to restore North Schleswig if so far as the population, by free voting, shall pronounce themselves in favor of such a step.

The King says—

"Our hopes have been directed to this object. The justice of these hopes has been recognized by Napoleon, who has testified a strong interest in our country.

"Denmark sees in the proposed settlement of the question a proof of the friendship of Prussia."

The war is supposed to be terminated in Japan.

The Japanese had purchased several steamers.

It has been proposed in Australia to levy one shilling duty on gold, per ounce.

NEW YORK, Nov. 25.

The Herald says—

Col. Thomas J. Kelley, Deputy Collector of Internal Revenue, is in charge of the Fenian headquarters in this city. Stephens has not been seen at the headquarters for some time past, and the impression prevails that he will not be seen again.

Arms are being received from all parts of the United States, Massachusetts taking the lead in the contributions.

One of the wealthiest merchants of this city has promised that he would on the 1st of December make over to Col. Kelly, in ships and war material, an amount equal to what Stephens has received since his arrival in this country.

The California Fenians have pledged themselves to contribute $11,000 to the cause through Stephens.

Special messengers are constantly arriving from Ireland, reporting the condition of affairs there.

MEMPHIS, Tenn., Nov. 24.

A special despatch to the Avalanche from Little Rock says:

The Arkansas Legislature has elected Hon J L Jones, of Phillips county, United States Senator.

The Presbyterian General Assembly will continue its session next week. It has been largely attended, and the greatest unanimity characterized its deliberations.

NEW YORK, Nov. 24.

James Tierney, in a quarrel at an early hour this morning, shot Ed Barry in the forehead. Barry died in a short time afterwards. Tierney was arrested.

Eugene Fergus found guilty of manslaughter in Brooklyn yesterday, was this morning sentenced to state prison for three years and six months.

NEW YORK, Nov. 24.

The business at the office of the Assistant Treasurer, to-day was $2,446,624 44.

NEW YORK, Nov. 24.

Arrived—ship Morning Star, Hamburg; bark Griffin, Rio Janeiro.

NEW YORK, Nov. 25.

Fifteen steamers left this harbor yesterday for various ports, carrying freight valued at six and a half million dollars.

The steamship Britannia, which left Glasgow on the 3d inst, has not yet arrived.—Some anxiety is felt for her safety.

Kansas City, Nov. 25.

The large four story warehouse and grocery commission house of Chick & Co and Scott, Ogden & Co, of Leo, was burned this morning. Loss $100,000; two-thirds insured.

Two clerks of Chick & Co were suffocated in attempting to escape from the building.

The fire was the work of an incendiary.

NEW YORK, Nov. 25th.

Arrived—steamer Fahkop, St Jago Cuba. She was boarded by schooner Tweed, from Nassau for Charleston, short of water, and supplied her.

Brig Conquer All, salt.

WILMINGTON, N. C. Nov. 24.

Granger's Hotel, at Goldsboro, was destroyed by fire to-day.

BALTIMORE, Nov. 25.

Steamship Liberdi, from New Orleans 1st via Havana 20th, brings the officers and passengers of the steamship Kingfisher, which foundered in a severe gale 60 miles southeast of Cape Hatteras. All were rescued, except three colored men.

MILWAUKIE, Nov. 25.

Flour dull.

Wheat active at 2,05 for No 1, and 1,83 for No 2.

Corn 88 for No. 1.

Oats 2 higher.

Receipts—1,300 barrels of flour; 37,000 bushels of wheat.

Shipments—8,000 barrels of flour; 89,000 bushels of wheat.

Beef heavy—sales 450 bbls.—new plain mess, 12,00 a 18,00; new extra mess 17,50 a 23,50.

Pork heavy.—new mots 22,75.

Lard firm—sales 1100 bbls at 12 a 13¾.

Butter lower—sales Ohio at 15 a 30: State 33 a 40.

Rice quiet.

Sugar dull and nominal at 9¼ a 9¾ for fair refining.

Coffee dull.

Molasses dull.

Naval stores quiet and lower—Spirits turpentine 73 a 74c.

Rosin 4,75 a 10,00.

Oils quiet—linseed 1,43 a 1,46.

Petroleum quiet—crude 22; refined bonded 34 a 35.

Tallow quiet—sales 64,000 lbs. at 11½ @ 12.

Wool dull.

Freights to Liverpool firm.

ARREST OF JOHN H. SURRATT. The arrest of John H. Surratt confirms the statement concerning him made not long since by Gov. Boutwell. Could he have been brought to this country he might have substantiated the evidence on record, that he visited Jeff Davis at Richmond, and there planned the assassination of Mr. Lincoln and his Cabinet. As it is very evident that Surratt received the protection of the Catholic Church, it is doubtful whether he can be brought to justice.

Isaac N. Surratt, a brother of John, who was formerly Captain in the Texas rebel cavalry, was in Baltimore not long since. He went from there to Canada, and is loud in his denunciations of President Johnson as the murderer of his mother.—[Sp. to Boston Journal.

—STRANGE STORY. When the story was first told that a woman who had been buried alive had been rescued from her awful condition and was actually recovering, it seemed incredible and was not believed. Subsequent information, however, leaves no doubt on the subject. A despatch from Quincy, Ill., says:—

"The story that a woman had been buried alive near this city has been confirmed. A week ago last Friday, a Mrs. J. H. McClard, living five miles distant from Quincy, was taken sick with a violent cold and on the following Sunday died as was supposed. On Monday she was buried in the family vault. The next Wednesday, an old lady, in company with the children of the deceased, visited the vault to pray for the soul of the departed. On their arrival at the tomb they heard groans issuing therefrom. Help was called for. The door of the vault was opened and lifting the lid of the coffin the terribly mangled form of Mrs. McClure was found still alive. Her hands were torn in her efforts to free herself. She is now doing well. She says that she remembers all that transpired during her trance state but was unable to speak or move a limb.

SHALL MORRISSEY SIT IN CONGRESS.—That is a question in which newspapers in all parts of the country, but particularly in the West, are now discussing. The opinions on the subject are divided, but a majority of the Radical papers very positively declare that Morrissey shall not sit in Congress.—N. Y. Sun.

We should like to have the Sun name the papers which have declared that Morrissey shall not sit in Congress. We have not yet seen the first one. "Radicals" here-about are well content that he should sit there. If the "democracy" of New York city wish to be thus represented, their opponents have no objection. Let the country and the world see their representative man.

## LOCAL AND OTHER ITEMS.

MUSICAL. It will be seen by advertisement that a class for the practice of Opera Choruses is to be formed at Mr. Wilder's hall on Monday evening, Dec. 3d—preliminary to an Oratorio Class to be formed about the first of February. Those who desire to obtain the benefit of this high grade of musical culture will do well to join this class, as no other of the kind will be formed this winter, either by Mr. Davenport or by Mr. Wilder.

PORTLAND MANUFACTURED KEROSENE OIL. The following correspondence requires no comment. Messrs. Howard & Bradley are agents for the sale of this oil in this city, selling it at the manufacturers' prices:

BANGOR, Nov. 20, 1866.

H. N. Jose, Esq., Treasurer Portland Kerosene Oil Company:

Dear Sir: We enclose herewith an article from the Lewiston Journal, giving an account of a fearful accident which occurred in that town last week, by which a lady lost her life by the explosion of a kerosene lamp. We are requested by several parties, who are daily using Portland Kerosene oil in their families, to inquire of you whether this accident occurred with Portland kerosene, or some of the refined petroleum coal oils or other vile compounds, which thoughtless dealers are constantly selling under the name of kerosene. Will you please inform us.

Very respectfully,
HOWARD & BRADLEY.

PORTLAND, Nov. 22

Messrs. Howard & Bradley, Bangor, Me.:

Gentlemen—We have your favor of the 20th instant, enclosing an article from the Lewiston Journal, and in reply would say that such an accident could not have occurred from our oil, for the following reasons, viz: That we do not make any illuminating oil but will stand a fire test of 140°, i. e., the oil must be heated to 140° before it will ignite, and we do not think it possible that it can be heated to so high a temperature in any ordinary lamp. Our oil is made exclusively from Albert coal, hence we can make it a higher standard than any petroleum oils are made. The standard for refined petroleum oil adopted in New York and Boston is 110°, and large quantities are sold far below that standard. We guarantee ours to stand at 140°.

We regret to say that some unprincipled parties have undertaken to imitate our brand of oil, putting on the packages containing their light oils, "Portland Refined Oil," leaving out our trade mark, "Kerosene." It is our intention to advertise these parties at once.

Yours truly,
H. N. JOSE, Treasurer.
Portland Kerosene Oil Company.

—The weather has been quite winter like since Saturday—the mercury falling to 10° above zero yesterday morning. But little ice made in the river, however, the water being high. We do not think navigation will close before next week—but our forests shut up very suddenly sometimes, and there is no safety in prediction.

—The Augusta correspondent of the Boston Journal describes a visit to T. S. Lang's farm. He says Mr. L. gives his attention to more particularly to hay and grain crops, and as a general thing is rewarded by an abundant harvest. He liberally manures his land; using none until it is at least two years old, and after it has been thoroughly composted. He uses about 4000 cords yearly. In addition to thoroughly dressing his lands, Mr. Lang pursues a system of thorough drainage, by which system in 864 eleven acres of undrained land produced thirty-three tons of hay, and in 1865, forty-three tons. Before draining the land did not produce over a ton to an acre. The income of his farm ought to be pretty large if he uses $25,000 or $30,000 worth of manure yearly.

THE AMERICAN COLONY IN PALESTINE. Recent intelligence from the American colony at Jaffa states that they are protected by a guard of Turkish soldiers, furnished at the solicitation of the American Consul.—At first the colony lodged in rudely constructed tents, but now most of them are provided with more substantial shelters.—Nearly all were contented and happy. Two children and a man named Burns have died, and one child has been born.

—The Lewiston Journal says that all of the power looms in the Woolen Department of the Bates Mills, and all of the older ones in the cotton department have attached to them an improved Harness Motion, patented in 1862 by D. M. Ayer, Esq., the agent of the Bates. The object of the improvement is to obtain a varied pattern in weaving, with a small number of lifts.—The patent is conceded to be an exceedingly valuable one.

—The Belfast Journal says that Captain Horace Anderson, of the U. S. Coast Survey service, left on Monday morning last for Washington. He is ordered to Louisiana, to assist in making a survey of the Passes of the Mississippi. A party under his charge has completed a thorough survey of the harbor of Waldoboro, and a map of the locality, which will be engraved for the Coast Survey Report.

—The Oxford Democrat says that Mr. Bradbury of Paris has petitioned for a charter for navigating the Saco river. It is stated that a steamer to Fryeburg is a fixed fact. Mr. Bradbury has the means to make it go. He will have two boats, transferring loads at the Saco Falls. It will be one of the most delightful pleasure routes in the State.

—The Portland Star says that the members of the Pearl Street Universalist Society have voted to sell all the property belonging to the Society and disband. As there is a decided feeling in favor of the formation of a Universalist Society at the lower end of the city, it is probable that a new Society will be formed, that will purchase the old lot and build thereon.

—The Portland & Kennebec Company has been hauling up some of the wood thieves who have pillaged freely from their sheds in Portland. Some of the Irish families have made a systematic business of it.

—A correspondent of the Machias Republican says the preparations for lumbering the coming winter are brisk. All logs contracted are to be up, and the market is clear of lumber.

Mr. Wm. H. Pennell of Cape Elizabeth, of the firm of Skillin, Small & Co., was severely injured, Tuesday, by the falling of a block of timber from the new store of Esterly Bodge, in process of erection.—Argus.

TERRIBLE ACCIDENT ON THE GRAND TRUNK. Disaster occurred to a train on the Grand Trunk road on Saturday, near Brosau Station, about 60 miles west of Toronto. The Toronto Leader gives full particulars, from which we condense the following:

The engineer had slackened speed preparatory to stopping, when he noticed that the engine, tender and baggage car became separated from the cars which followed. In a moment a terrible crash was heard. The express car, which was the second car of the train, had run off the track, following by the post office and six passenger cars; and from the track they rolled down the embankment, which at that place is about 15 feet in hight—each car breaking into the other until the whole train was a complete wreck.—A scene of indescribable ruin and confusion followed, and it was some time before the full extent of the calamity was ascertained. The express messenger jumped from the door as the car went over the embankment and was immediately killed. The post office car which followed the express car, also fell down the embankment and became a complete wreck. Strange to say, the mail conductor escaped without a scratch, although papers, letters and mail-bags were strewn about in every direction. One end of this car was separate as a smoking car, which was filled with passengers, not one of whom was injured, although all were carried down the embankment in the car.

The first class passenger car which followed was run into by the one behind—"telescoped" as it is technically called, and it was in this that the greatest injury was inflicted upon the passengers, none of whom, however, were killed. Nearly every seat in the car was filled, and how the passengers escaped instant death is one of those marvels often noticed in accidents of this kind, but never satisfactorily accounted for. Several of them, however, were severely injured.—The remaining four passenger cars of which the train was composed were badly smashed, and most of them tumbled over the embankment; but all the passengers escaped without injury.

MORE APPOINTMENTS FOR MAINE. Although it has been semi-officially reported that there was not to be any more 'rotation,' the following appointments have been made—it is said on the recommendation of Mr. Sweat of Portland.

Edmund W Flagg of Bangor, Inspector of Internal Revenue for the Fourth District of Maine, vice Jos. Carr, removed; Jas. A Fairfield (a son of Governor Fairfield), to be Postmaster at Kennebunk; Charles C Hobbs, to be Postmaster at South Berwick; Thatcher G Wedgewood, to be Postmaster at Limerick; R E L Coombs, to be Postmaster at Bowdoinham: Robert Spinney, to be Postmaster at North Boothbay; Isaac D Cushman of Mechanic Falls, to be Route Agent on the Grand Trunk Railroad from Portland to Island Pond, vice A H Eames, removed; Thomas L Hoitt, of South Berwick, to be Route Agent on the Eastern Railroad from Portland to Boston, vice J S Brown, removed.

THE ABDUCTION CASE. Some days ago mention was made of the arrest at Brunswick of John Stoyell of Farmington, on the charge of abduction of a young lady of Brunswick for purposes of prostitution. He has since been ordered to find bail in $3000 on that charge, and also $500 on a charge of bastardy. There being also a civil process ready to be served for seduction, with damages laid at $10,000, and bail claimed at $20,000, no attempt was made to procure the former bail. The Argus says Stoyell is a Brunswick student aged 19, and the allegation is that he enticed away a girl of 17, belonging to a respectable family in Brunswick, and carried her to the Sagadahoc House, Bath, she alleges by deception, and when she was excited by intoxicating liquors.

An exchange tells us the Bowdoinham Bank robbers are having all sorts of offers from outsiders who wish to have the handling of some of the bonds raised by their raid. The attempt to settle with that $75,000 proved abortive, and the robbers calculate to fall back upon their innocence, unless, as Micawber says, something happens to turn up by which they can turn their backs to the prison walls and leave that part of the country. The police of Augusta have gathered some facts in relation to the Concord Bank robbery, which has given a new light to that affair. The robbers say that most of the extensive robberies are made with aid of men, who, after the robbery, claim to be smart and sharp in the spoils of restitution.—Bath Times.

FATAL ACCIDENT AT WHITNEYVILLE. Last Saturday as Charles Pennell, a young man about twenty-two years old, was shackling together a couple of car loads of lumber on the Whitneyville and Machiasport railroad, while the cars were moving, he missed his calculations and was crushed between the cars, taking him across the abdomen.—He lingered until 4 o'clock Sunday afternoon.—Machias Republican.

—The Freemasons of Eastport are erecting a fine block of buildings, to contain a spacious hall for their own occupation—one of the finest in the State. This hall will be 30x50 feet with 18 feet front, and will have four large windows with ten lights of glass 18x40.

—Rev. George W. Durell, formerly Rector of the Episcopal Church in Bath, has entered upon his duties as Rector of Emmanuel Church, Somerville, Mass.

—Four Washburnes are elected to the next House of Representatives, three of whom are brothers to our ex-Governor.

—The Brunswick Telegraph says Deacon Heman Pettengill of that town was found dead in his bed on Sunday morning last.

—We learn from the Belfast Age that the Belfast Lodge of Good Templars is doing finely, new members being initiated at every regular meeting.

BISHOP OF MAINE. Rev. Dr. Neely has formally accepted the Bishopric of Maine. He will probably be consecrated in New York, as soon as the requisite arrangements can be made.

—N. P. Willis has had a paralytic stroke, and is in a very critical condition. He was born in Portland in 1807. Longfellow was born there the same year.

THE IMPEACHMENT QUESTION. The Tribune of Thursday says:

Gen. John A. Logan, we hear from Washington, denies that he favors the impeachment of President Johnson. We supposed he would deny it. General Logan has always been considered a man of practical common sense.

# LIFE INSURANCE!
## WHICH IS THE BEST?

THE advertisement published by the Agents of the New York Life Insurance Company does not attempt to contradict the statements we make, drawn from the Massachusetts Insurance Commissioners Report, viz:—that of the four leading Offices the New York Life now

Issues the *least* number of Policies,
Insures the smallest amount,
Receives the *least* amount of Premiums and Interest,
Costs more to transact its business, and that their ratio of loss to amount insured is the largest.

The following Table is from the last Report of the Massachusetts Insurance Commissioners, universally acknowledged to be the most reliable authority on Life Insurance in the country, and all these statements are *made by the Commissioners themselves.*

Number of Members.

| | |
|---|---|
| Connecticut Mutual, | 29,425 |
| New York Life, | 15,508 |

Amount Insured.

| | |
|---|---|
| Connecticut Mutual, | $80,220,871 |
| New York Life, | $43,365,304 |

Ratio of Assets to Liabilities.

| | |
|---|---|
| Connecticut Mutual, | 144.30 |
| New York Life, | 125.28 |

Policies Issued in 1865.

| | |
|---|---|
| Connecticut Mutual, | 3101 |
| New York Life, | 4108 |

Amount Insured in 1865.

| | |
|---|---|
| Connecticut Mutual, | $23,735,080 |
| New York Life, | $12,883,709 |

Income of 1865.

| | |
|---|---|
| Connecticut Mutual, | $3,858,210 78 |
| New York Life, | $2,447,439 56 |

Ratio of Expenses to Receipts.

| | |
|---|---|
| Connecticut Mutual, | 9.86 |
| New York Life, | 12.65 |

Ratio of Losses to Amount Insured.

| | |
|---|---|
| Connecticut Mutual, | 91 |
| New York Life, | 1.32 |

These figures incontestibly prove that of these two Companies the Connecticut Mutual Life has—

The largest number of members,
Largest Amount Insured,
Largest Surplus,
Largest Business,
Largest Income,

That its expenses and losses are the least, hence that it is

"THE BEST!"

The statement that the New York Life does the largest new business in Boston is without doubt correct, and is solely attributable to the ability and activity of their agent, but the inference they draw that their large business there is owing to the superior advantages offered by their Company is simply an absurdity, as the real popularity and public appreciation of any Company is shown by its total business.

THE PORTLAND
KEROSENE OIL,
IS an entirely different article from the various refined Petroleums or Coal Oils daily sold as Kerosene. Its superiority consists in its great brilliancy of light; it does not smoke the glass or crust the wick; is free from offensive odor; entirely safe from explosion; and will last fifteen per cent. longer than any other oil.
It is put up in new heavy barrels, cemented inside, which entirely prevents leakage, and purchasers get the full number of gallons they pay for.
The subscribers offer this oil to the trade at the Factory, price, delivered in Bangor.

## A Life on the Ocean Wave.

"A life on the Ocean Wave?"
The man who wrote it was green:
He never had been to sea,
And a wave he never has seen.

He never has seen a wave
As it dashed o'er the vessel's deck;
He never has seen a fire at sea,
Or been floating upon a wreck,

He has never been roused
From his morning's gentle doze
By the sound of the splashing water
As it fell from the horrid hose.

He never has heard a man
Scrubbing right over his head,
With a noise sufficient to rouse
From the grave the slumbering dead.

He never has seen a woman
Growing thinner day by day,
And leaning over the vessel's side,
Throwing herself away.

While the people look carelessly on,
Though in tears the woman may be,
And unfeelingly say it is nothing at all,
Only the roll of the sea.

And, Oh! he has never been sea-sick,
And crept into bed in his cot,
While every motion increased his 'throes,'
And his 'feelings' were in his throat.

That man may have sailed in a boat
In some puddle or in a sound,
But if he has been to sea, and wrote
Such a song, he deserves to be drowned.

HALL'S ARCTIC EXPLORING EXPEDITION.—*Interesting Account of Captain Morgan.*—Henry Grinnel, Esq., of New York, has received the following letter from Mr. H. Chappell, of New London, Conn., regarding Hall's Arctic Expedition. Hall had been supplied with provisions from the ships Black Hawk and Ansel Gibbs, which are reported to have arrived in Repulse Bay. Mr. Chappell writes as follows:

The steam whaling barque Pioneer, Capt. Morgan, from the North Sea, arrived at this port yesterday. As the vessel fell in with Mr. Hall and yet brought no letters from him, I forward you Mr Morgan's statement of his interview, and the success of Mr. Hall in his researches among the natives of the northwest coast of Hudson's Bay. The Pioneer reached the head of Repulse Bay, north of the river Welcome, on the 29th of July last. Here they met Hall and a party of Esquimaux. All were in good health, and at that time were engaged in fishing. His faithful adherents, Joe and Hannah, Esquimanx, with other natives from his family or troupe, were with him, but no white men. Hall was much affected at again meeting familiar faces and to hear news from home. He had passed the winter very comfortably, being thoroughly inured to the Esquimaux mode of life, and having, with his resources, secured ample supplies of food at this station. He killed one whale last fall and another this summer, while just inland deer were found in great abundance. He had established a great many depots for provisions extending far into the interior, to be used in case of necessity. Last spring Hall made a journey northwest, toward Committee Bay and King William's Land, but found the natives in that region so treacherous and jealous that he was forced to return when within one hundred miles of his destination. This animosity and feud is between different families and tribes of the Esquimaux, who will carry weapons secretly, and don't hesitate to kill each other for reallon supposed injury. Hall's life and the rest of the party being threatened, they turned back. Hall secured a great many relics of the Franklin Exploring Expedition, together with an important document which it is believed had been penned by Capt. Crozier, and also has information of the location of the others, which he determined to obtain, believing it to be of much value towards clearing up the mystery and fate of the unfortunate survivors of the Erebus and Terror.

Hall is continually adding to his stock of information, the object of his search being further known among the natives, he is constantly gathering from traces and new proofs to establish positively known facts. Among other things he has heard of the location of a boat, bottom up, under which are said, to be dead bodies of from 17 to 25 whites, with their hands and feet all cut off. The natives claim that the mutilation was not done by them, but by the whites, who were wrecked. The Esquimaux tradition is that a rebellion broke out among the survivors, who were endeavoring to reach Hudson's Bay, and that all but three were murdered. That these remained among the natives, working their way toward the white settlements, but finally died before reaching them.

Capt. Morgan furnished Hall with such things as he needed from the ships, and states that two or three American whaling vessels will winter at Repulse Bay this season. Hall expressed great gratitude for these who had aided him at home.

He had undertaken his plans of discovery, and was determined to carry them out if it could be done without too much expense, and that he should conclude his explorations in that quarter the ensuing year. He wished very much to organize a small party of six or eight whites, fully armed, to accompany him, so that he could travel with security, and reach the utmost limit of his desires. It is not improbable that such a party can be made up from the ship's crew wintering there. Hall was preparing to send home by the Pioneer many relics and his journal and letters, but owing to ice the ship was unable to communicate with the land.

INCIDENTS OF THE FAMINE IN INDIA.—Much has been said of the distressing scenes witnessed in India during the recent famine, but we have seen no narrative more touching than the following, which we copy from an English magazine:

It is in Orissa, Ganjam and Midnapore that the distress wrought by the famine is felt in all its intensity. In these districts it is supposed that the death-rate has been a thousand a day for many months; but the number of those who have thus miserably perished by hunger and disease will never be accurately ascertained. Vast numbers have fled from the districts, some to sleep an eternal sleep by the roadsides, where their unburried bones lie bleaching in the scorching sun—mute witnesses to the blessings of British rule—and others to arrive in Calcutta, so emaciated that they appear as if their skeleton frames were covered with thin transparant india rubber. In the "City of Palaces,' and other towns where they have sought refuge, it is calculated that seventy-five thousand are daily fed by public charity and at least double that number, or one hundred and fifty thousand by public charity.

"To see one of these immense crowds, when the daily distribution of rice takes place, is a most heart-rending spectacle of utter wretchedness. In one quarter are thousands of Hindoos, in another thousands of Mussulmans, and at a little distance, sheltered by the ghaut, are the women, girls and children. You can scan the faces of the assembled thousands and see in every one of them the same expression—the pinched, despairing, yet resigned look of mortal weakness, or of mortal sickness, which the sight of food suddenly changes into a hungry, longing, devouring look—the kind of look which inspires feelings of pity for even a starving, wild animal. Out, when worn by the human countenance, is indescribably painful to behold. Over all is the silence of death; no loud and noisy laughter, as would be the case at other times; hardly a sound, save at intervals, when some famished wretch, almost unable to stand, utters a cry of wild despair, wrung from him by the gnawing, unappeasable pangs of hunger. At other places fearful struggles to get possession of the food take place, and many lives are lost in the sickening scramble

A ROMANCE IN REAL LIFE.—The N. Y. Herald has an account of a somewhat remarkable change of fortune that has occurred to a young man known by the name of George Oslon, and occupying the humble position of lamp trimmer and 'Jack of the Dust' on board the United States steamship Madawaska, now in that port, by which he has suddenly come into possession of $300,000 in gold, together with the Hungarian title of Edward Louis, Count Batthyanyi, and the extensive estates attached thereto.

It appears that Oslon, or the Count, left his country in 1848, when very young, after his father had been executed for being concerned in the rebellion under Kossuth, (to whom he is nearly related,) and has since been in the United States. He knew little of his family or their real position, and supposed that in consequence of his father's disloyalty all their possessions had been confiscated. Finding it difficult to gain a livelihood, he joined the United States steamer Madawaska as a landsman, was employed as a lamp trimmer and assistant to the captain of the hold. He never hinted to his messmates that he was of noble birth, or had held a higher position than the one he occupied. In fact, it does not appear that his Countship had any very clear notions himself on the matter.

Believing his father to be a disgraced man, he troubled his head little about family matters, and betook himself with great industry to the care of his lamps and all his other duties on board. Happening to get hold of a newspaper a short time since, he discovered an advertisement requesting Edward Louis Batthyanyi to communicate with certain parties and he would hear of something to his advantage. Our young blue-blooded Hungarian lamp-trimmer lost no time in complying and having proved his identity, received an instalment of $300,000. Instead of informing his commanding officer of this strange vicissitude of fortune, which had metamorphosed a United States naval lamp trimmer and 'Jack of the Dust' into a Hungarian nobleman, with a revenue of upward of $50,000 a year, Batthyanyi, or Oslon, deserted from the Madawaska. He is now in Washington, under the patronage of the Austrian ambassador, endeavoring to procure a formal discharge from the service. That he will succeed we have not the slightest doubt, and it is to be hoped that this sudden elevation to rank and fortune will have the effect of making him read the advantage of the trying experience he has had of the roughest side of life. While on board the Madawaska he was remarkable for his good behavior, and the regular discharge of his laborious duties; and now, when exalted to the rank of a Hungarian grandee, we expect he will become, as he always promised, a respectable and worthy member of society.

Everybody who visited the White mountains a dozen years ago, going from Portland by the old White Mountain stage, will remember John Smith, the driver. He was a man of moods, and frequently was the very opposite of courteous to his passengers. One day, on his down waad trip, he had an outside passenger, a very loquacious party, who despite many repuffs, persevered in attempting to make John talk. At last, in response to one of the gentleman's inquiries, John roughly answered, 'You attend to your business and I'll attend to mine.' This was effectual, and Loquax shut up. The stage rolled on, stopped at Standish a few minutes to leave the mail and went on. When a point some six or eight miles beyond that pleasant village was reached, John looked under his seat and saw that the mail bag was missing. 'There' said he, with much vehemence, 'I've left that mail!' 'Yes,' responded the outside passenger, 'I knew you did.' 'Well, why the devil didn't you tell me of it?' inquired the irate John. 'Why you requested me not long ago to mind my own business, and you would mind yours, and I thought I'd let you, but you don't seem to have done it,' was the answer. John gathered up his reins, turned his horses' heads the other way, and drove rapidly back to Standish for the missing mail.

A PIGEON ROOST.—A gentleman who recently paid a visit to a famous pigeon roost in West Virginia, describes it as one of the most interesting sights ever witnessed. He says: "We arrived on the ground about sundown, and had to wait more than half an hour until the advance guard commenced coming in, which continued until we grew weary and began to inquire if they were not almost all in, our pilot assuring us they had hardly commenced. By and by the squads began to increase in numbers, and becoming more frequent, until finally they swelled into a vast cloud, which almost obscured the heavens above us from view, and flowed down the ravine in a perfect stream without any cessation for upwards of an hour, accompanied by a noise like the flowing of a mighty river. We were amazed—bewildered, and requested our brother hunter to hold our hat while we would, with open mouth and eyes and wide extended arms, take in the scenes above us. Finally, the rear guard came up, and by the time they had all found a resting place, every tree and bush and twig was bending beneath their weight, resembling more than anything else we can call to mind a swarm of bees settling upon the limbs of a tree. The ground was covered with limbs broken by their weight. We noticed trees as thick as a man's wrist broken and bent to the earth and others entirely uprooted."

BLEEDING FROM THE NOSE.—A correspondent of one of our exchange says:

"Some two years ago, while going down Broadway, in New York, blood commenced running from my nose quite freely. I stepped aside and applied my handkerchief, intending to repair to the nearest hotel, when a gentleman accosted me saying: 'Just put a piece of paper into your mouth, chew it rapidly, and it will stop your nose bleeding.' Thanking him rather doubtfully, I did as he suggested and the flow of blood ceased almost immediately. Doubtless any substance would answer the same purpose as paper, the stoppage of blood being caused doubtless by the rapid motion of the jaws, and the counter action of the muscles and arteries connecting the jaws and nose."

A "gentle" physician, who has been visiting the Mormons at Salt Lake City lately says there is a great schism among them on the subject of polygamy. It is the opinion of many that if Joe Smith would go out there and place himself at the head of the anti-polygamists, they would overpower Brigham Young in every way. Only a comparatively few of the wealthy indulge in the practice, and the women, unless carried completely away by religious fanaticism, are not very well contented under it.

Instances of members of harems drawing out and marrying singly are not so very uncommon.

A NOVEL METHOD OF DOCTURING FRUIT TREES.—A gentleman of Rochester was lately in Saratoga county, N. Y., and was there shown an apple tree in fine healthy condition which had been ill, subjected to treatment with calomel and thoroughly cured. This tree was afflicted with insects, which were destroying it and rendering it unproductive. A hole was bored into the body of the tree nearly through the sap, the vermin on the tree died, and it began to bear fruit and has done so for three years, to the entire satisfaction of the owner. Sulphur may be mixed with the calomel and produce a good effect. This is a fact worth knowing.

# PENOBSCOT MUTUAL FIRE INSURANCE COMPANY,

BANGOR, MAINE.

OFFICE,—Corner of Hammond and Central Streets.

**Incorporated 1836.**

THIS COMPANY IS WHOLLY MUTUAL. It is strictly a Benevolent Institution for Mutual Protection.

This Company being purely Mutual, insures at the lowest possible rates. The member in reality insure each other, and the accumulated assets are held by the Company in trust, to meet its obligations to them.

Among the many reasons why this Company deserves the liberal support and patronage which it has attained, are the following:—

It offers the most ample and undoubted security to its members. It possesses over

**$230,000,**

IN RELIABLE ASSETS.

The business of the Company is confined exclusively to Fire Insurance. The Assets, in proportion to the amount at risk, are probably greater than those of any Established Company in the United States. It has always adjusted and settled its losses with promptness and liberality. It is economical in its business. Its Directors are well known—they are men of wealth, reliability, and integrity. It being purely a Maine Institution—other things being equal—entitles it to a preference over Foreign Corporations.

This Company will continue as heretofore to insure persons against

SNOW POWDER

Patented May 29, 1866.

This is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and unlike other preparations offered for a like purpose, WILL NOT ROT THE CLOTHES, but will leave them much WHITER than ordinary methods, without the usual wear and tear.

It removes grease spots and iron moulds, and softens the dirt by soaking, so that rinsing will in ordinary cases entirely remove it.

This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used.—Among the advantages claimed are the following, viz:—

It saves all the expense of soap usually used on cotton and linen goods.

It saves most of the labor of rubbing, and wear and tear.

Also, for cleaning windows it is unsurpassed.—With one quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode. No water required except to moisten the powder.

Directions with each package.

And can be readily appreciated by a single trial. The cost of washing for a family of five or six persons will not exceed THREE CENTS!

The manufacturers of this powder are aware that many useless compounds have been introduced to the public which have rotted the clothes, or failed in removing the dirt, but knowing the intrinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and which has heretofore remained unsupplied.

THE

*BEST COOKING STOVE,*

IN THE MARKET,

"PEERLESS," FOR COAL OR WOOD.

THE "PEERLESS" has all the advantages of the popular stoves in use, together with such NEW FEATURES as justify the manufacturers in calling it the BEST COOKING STOVE in the market.

It is the "PEERLESS," because it is superior to all other Cooking Stoves in *Economy, Simplicity, Cleanliness, Baking, Roasting and Beauty.*

1st. ECONOMY. A patented method of heating the air and conveying it through the oven, saves from *twenty to thirty per cent. of fuel.*

2d. SIMPLICITY. It is easily managed. The fire can be perfectly controlled, and kept through an entire season without rekindling.

3d. CLEANLINESS. No dust escapes while shaking or dumping the grate.

4th. BAKING. Its large oven, wherein all parts are of *equal* temperature, bakes as *evenly as a brick oven*, and that without turning the article. It bakes quickly. It will bake upon the oven rack quickly, evenly and well at the same time the oven bottom is fully employed in baking or roasting.

5th. ROASTING. A current of hot air constantly passing through the oven, so thoroughly ventilates it, that it *roasts as well as a tin kitchen.*

6th. BEAUTY. Made of the best iron, it will not crack. Well mounted, artistically designed and smoothly cast, it is the *most beautiful* as well as the *most serviceable* stove in the market.

Each stove is WARRANTED to be and to do all that is claimed for it.

FELLOWS' ORIGINAL

WORM LOZENGES.

WE can with confidence point to FELLOWS' WORM LOZENGES as the most perfect remedy for those troublesome pests,

INTESTINAL WORMS.

After years of careful experiment, success has crowned our efforts, and we now offer to the world a confection without a single fault, being safe, convenient, effectual and pleasant. No injurious result can occur, let them be used in whatever quantity. Not a particle of calomel enters their composition. They may be used without further preparation, and at any time. Children will eagerly devour all you give them, and ask for more. They never fail in expelling Worms from their dwelling-place, and they will always strengthen the weak and emaciated, even when he is not afflicted with worms.

Various remedies have, from time to time, been recommended, such as calomel, oil of wormseed, turpentine, &c., prod cing dangerous and sometimes fatal consequences. After much research, study and experiments, embracing several years, the proprietors of FELLOWS' WORM LOZENGES have succeeded in producing this remedy, free from all objections, and positively safe, pleasant and effectual. They do not kill the worms, but act by making their dwelling place disagreeable to them. In order to assure consumers of the genuineness of these Lozenges, the analysis of DR. A. A. HAYES, State Assayer, is annexed:—

"I have analyzed the WORM LOZENGES prepared by Messrs. FELLOWS & CO., and find that they are free from mercury and other metallic or mineral matter. Those Lozenges are skilfully compounded, pleasant to the taste, safe, yet sure and effectual in their action. Respectfully, A. A. HAYES, M. D.

Assayer to the State of Mass."

Price 25 cents per Box; Five for $1.

Special Notice

To Soldiers and Seamen!!

The Law Has Passed!

Bounties Equalized.

Justice Done the Early Soldiers and Seamen of the War, their Widows and Heirs.

NOTICE has been sent me from Washington, that the Law equalizing the bounty to Soldiers and Seamen was passed Saturday last, July 28th, by Congress.

I am now authorized and prepared to collect this Bounty for every Soldier and Seaman entitled, also for their Widows and Heirs.

Application made personally at my office, or by mail,—the discharge of the Soldier or Seaman should be handed in—as it must be forwarded with the application.

All applications must be made signed, witnessed and sworn to, AFTER THE PASSAGE OF THIS LAW. Many soldiers have been induced to sign papers before the law passed. This practice is irregular, fraudulent and void, and papers in all such cases must be made over.

November 10, 1866.

NATIONAL HOUSE,

Harlow St., Bangor, Maine,

A. R. GREENOUGH, - - - Proprietor.

This House is situated in the most business part of the city, is now open to the travelling community.

The Proprietor hopes by strict attention and personal attention to receive a liberal share of patronage.

The tables will be furnished with the best the Market affords, and every attention will be paid to his guests.

There is attached to this House a good STABLE, with attentive Ostler. Charges moderate.

A. R. GREENOUGH.

Bangor, September 8, 1866.

NICHOLS HOUSE,

This well known House, having been leased for a long term of years by the undersigned, has been repaired and refurnished throughout, and is now open for the reception of the travelling public. The location of this House is central, being in the same to the public convenience.

This Hotel is centrally located, and within easy limits with the Boats and Cars.

The Proprietor has had a long experience in the "Parker House," of East Conway, and the "Franklin House," of Newport, and flatters himself that all patrons he will furnish an agreeable and comfortable home. Every effort and expense will be used to make this House first popular and attractive as any in this section of the State.

Livery Stable connected with the House.

Coaches in readiness for any business at all hours.

Stages leave this House daily for all parts of the country.

Lemuel Nichols.

Bangor, Feb. 23, 1866 (Tribune)

SNELL HOUSE.

The Subscriber has purchased the above House, and proposes to keep a

"First Class Hotel."

He has repaired the House, put down new carpets, made additions to the furniture, &c., &c. Has also secured the services of M. H. HUNTRESS as Clerk. And by the close attention to business, the fatters himself that he can please the people of Aroostook—or any other man.

GEO. PARES, Proprietor.

Houlton, July 1, 1866.

The New Bounty Law.

SAVE YOUR MONEY!

SOLDIERS AND THEIR HEIRS can get the New Bounty, given by an Act of Congress of July 28, 1866, by calling on the subscriber, a United States Special Agent, cheaper than at any other office in the State.

Daniel Sanborn,
U. S. AGENT.

aug 1—tf

NEW

BOUNTY LAW!

SOLDIERS who have served THREE YEARS, or their widows or heirs, are entitled to

$100 Additional Bounty.

And Soldiers who have served TWO YEARS, or their widows or heirs, are entitled to an additional Bounty of $50. Increased Invalid Pensions of $10, $20, and $25 per month, according to the degree of disability.

Increased Pensions, FOR WIDOWS.

All Widows drawing Pensions are now entitled to an increase of two dollars per month to each child under sixteen years of age.

Three Months Pay Proper!

Officers who were in the service, March 3, 1865 and were honorably discharged after April 9, 1865 are entitled to 3 months pay proper.

All persons having claims under the above laws, should make application at once, in person or by letter, at the old and reliable War Claim Agency of

Perkins & Stevens,

NO. 1 MAIN STREET,
BANGOR, MAINE.

N. B.—They refer to the thousands of claimants, whose claims they have prosecuted in a speedy and satisfactory manner. aug 2
